INTERNET COUPON POLICY

Due to the high amount of fraud with internet coupons, Frank's Piggly Wiggly has instituted this policy:

- Internet Coupons **must** scan on our scanners, if for any reason they do not **we will not accept them.**
- We will **NOT** accept Internet Coupons for **FREE** Items.
- Proctor & Gamble does not offer Internet Coupons, so we will not redeem P&G internet coupons.
- We will **not** accept any Internet Coupons on any Double Coupon events.
- The value of any internet coupon **must not exceed \$2.00** and may not exceed 50% of the retail price of the item.
 - Example – we would take a \$2.00 coupon on a \$4.00 item (50%), but would NOT take a \$2.01 coupon on that same item (over 50% of retail and over \$2.00).
- We will impose a limit of 1 Internet coupon per item, per variety and no more than 4 internet coupons on different items per visit For example; if you have 4 coupons for XYZ coffee, you can use one. If you have 4 coupons for 4 entirely different items - you can use all 4.
- We will require a **minimum \$10 non coupon purchase** before we will redeem any Internet Coupons in any transaction.
- In rare cases, we may ask for your name and address. If the internet coupon is found to be invalid we may ask you to reimburse us for the value of the coupon you gave us.
